Lot Y	2, 4 & 10 hour meters

* Long-Term Parking

Guide to Parking in the Broadway Commercial District

The City of Burlingame maintains on-street and off-street parking spaces to serve customers, visitors, employees and residents in the business district. Parking fees and time restrictions are set to encourage employee parking in the long-term parking lots near California Drive, while promoting customer and visitor parking along Broadway. The funds derived from parking fees pay for parking lot maintenance and district improvements.

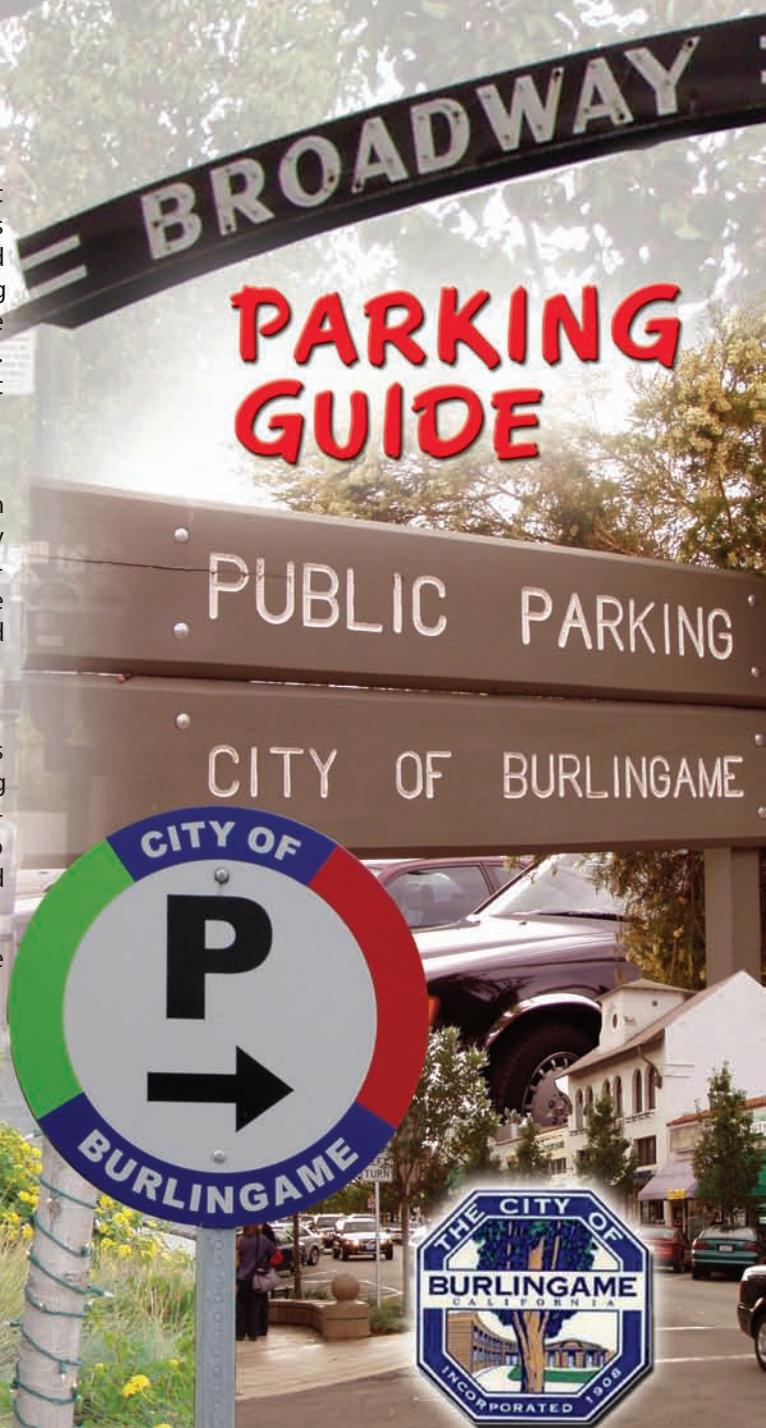

ON-STREET PARKING

On-street parking is mainly controlled by meters which accept nickels, dimes, and quarters. Meters on Broadway have a one-hour time limit, with a limited number of 24-minute meters provided near businesses that generate high turnover activity. Additionally, two-hour metered spaces can be found on streets adjacent to Broadway.

PARKING LOTS

The City provides 6 off-street parking lots. These lots have 2-hour, 4-hour, 9-hour, and 10-hour parking meters. One of these lots is equipped with a pay-and-display coinbox. To use this coinbox, deposit \$2.00 into the coinbox slot corresponding to your numbered parking space for 10 hours of parking.

For more information about public parking, please contact the City of Burlingame at (650) 558-7230.
